## Ashley Tisdale, Don

Zoom zoom in under my skin Gotta slow down now to begin Baby don't rush you can look but don't touch

You think u know When u see me in my videos How the story goes But that's just the side that I expose Look through the lens You see my body, not who I am... So don't pretend And try to act like you're my boyfriend

U wanna get somewhere Then boy don't touch me there Just get up close and personal, personal

Chorus: Zoom zoom in under my skin Gotta slow down now to begin Baby don't rush you can look but don't touch Zoom zoom In...to my head Gotta know me to be my man Boy prove your love

You can look but don't touch

You won't behave You're gettin' all up in my face Barely know your name, you're tryin' to score But it's not a game Boy get a clue yeah, U gotta spend the time, Pay your dues following the rules if u want me to want to be with u

U wanna get somewhere Then boy don't touch me there Just get up close and personal, personal

Chorus

Don't you dare Touch me there If you want to get somewhere Zoom in get to know me, boy Don't rush Zoom in if you want me, boy Don't touch

Chorus
