

Asia Ash, Brighter (feat. Remo)

sometimes you feel that you can run any faster
something is black and you and do this can get out
you try to scream but no one hears you
and you can find the way out hey yeah

take a breath
come to tell
imagine that
you're like a bird
spread your wings
try to fly
cause you can fly higher then high

brighter aa a aa.. x3
live the race of the light shine on you

some people over try to say how good or bad you are
they try to force to give up or know your dreams
so day by day you deep into the wind again
and you are so afraid to be yourself

brighter aa a aa.. x3
live the race of the light shine on you

righter aa a aa.. x3
live the race of the light shine on you
