

Astropuppees, Sugar Beat

It's cold outside
But I don't care
I'm gonna walk
Down the street
And I don't care
It's dark outside
But I don't care
Little bit of rain
It's only water
The bars are open
Some girls are dancing in the dark
Martini shakin'
Looks like s shag cartoon
Nothing matters
Now nothing matters
We're going to the sugar beat
Yeah, you gotta go right there
Sugar beat
Yeah, you gotta go right there
Come on come with me
It doesn't matter what you wear
The bongos shimmy
A move is automatic
Nothing matters
Now nothing matters
We're going to the sugar beat
Yeah, you gotta go right there
Sugar beat
Yeah, you gotta go right there
You gotta get some
You're gonna have fun
If you can't stay late
Don't come to town with me
I can't wait just grab a jacket
Nothing matters
Now nothing matters
We're going to the sugar beat
Yeah you gotta go right there
Sugar beat
Yeah, you gotta go right there
You gotta get some
Sugar beat
The sugar is spun
Look for someone
It's gonna be fun
If you can't stay late
Don't come to town with me
I can't wait
Just grab a jacket
If you can't stay late
Don't come to town with me
I can't wait
Just grab a jacket
If you can't stay late
Don't come to town with me
I can't wait
Just grab a jacket
