

# Ataris, I won't spend another night alone

A star up in the sky goes slowly passing by,  
The lights below...they spell out your name.  
You're comfort on my mind and you're with me all the time.  
And lot's of feeling that I can't explain.  
I won't spend another night alone.  
Out of every girl I meet, no other can compete  
I'd ditch em all for a night with you.  
I know you don't believe you mean this much to me  
But I promise you that you do.  
If I had one wish this is what it would be...  
I'd ask you to spend all your time with me,  
That we'd be together forever.  
We'd buy a small house in south central L.A.  
Raise lots of kids then we'd both join a gang  
Just as long as we're together.  
The things you make me wanna do  
I'd rob a quik-e-mart for you  
I'd go to the pound and let all the cats go free  
Just as long as you'd be with me.
