

# ATB, Communicate

Let's quit on this - 'cause I need space now  
That's what you said to me - that's what you did to me  
Where did this start and where does it end now  
What do you came for  
I've never been so sure  
And I whisper while you speak  
And I scream while you sleep  
But I always will be where you are  
And when silence turns into hate  
It's time to communicate  
And I always will be where you are  
Here's what it takes to take a stand now  
You'd better speak your mind  
You'd better ease your mind  
Where did we start and where do we go now  
Was it your plan to leave - everything up to me?  
And I whisper while you speak  
And I scream while you sleep  
But I always will be where you are  
And when silence turns into hate  
It's time to communicate  
And I always will be where you are
