

# ATB, I don

Hey there I hope everythings alright  
I forgot to call you in the winter time  
Like the waves crash coming right  
Ive got feelings pouring down against the ceiling  
While you try to trace which side Im on  
When the wind blows between us  
High above this empty feeling  
I Dont Wanna Stop  
I Dont Wanna Stop  
When the waves crash beneath us  
Down below this empty feeling  
I Dont Wanna Stop  
I Dont Wanna Stop  
Can we dance like everythings alright  
Can we trade the day in for the night  
Like a homesick tournament  
Im not breathing till I leave with you believing  
I dont wanna trace another song  
When the wind blows between us  
High above this empty feeling  
I Dont Wanna Stop  
I Dont Wanna Stop  
When the waves crash beneath us  
Down below this empty feeling  
I Dont Wanna Stop  
I Dont Wanna Stop  
I Dont Wanna Stop  
I Dont Wanna Stop  
When the wind blows between us  
High above this empty feeling  
I Dont Wanna Stop  
I Dont Wanna Stop  
When the waves crash beneath us  
Down below this empty feeling  
I Dont Wanna Stop  
I Dont Wanna Stop
