

# ATB, I Dont Wanna Stop

Hey there I hope everything's alright  
I forgot to call you in the winter time  
Like the waves crash coming back  
I've got feelings pouring down against this healing  
While you try to trace which side I'm on

When the wind blows between us  
High above this empty feeling  
I Don't Wanna Stop  
I Don't Wanna Stop  
When the waves crash beneath us  
Down below this empty feeling  
I Don't Wanna Stop  
I Don't Wanna Stop

When the waves crash beneath us  
High above this empty feeling  
I Don't Wanna Stop  
I Don't Wanna Stop  
When the waves crash beneath us  
Down below this empty feeling  
I Don't Wanna Stop  
I Don't Wanna Stop

Can we dance like everything's alright  
Can we trade the day in for the night  
Like a homesick tunnelling  
I'm not breathing till I leave with you believing  
I don't wanna trace another song

When the wind blows between us  
High above this empty feeling  
I Don't Wanna Stop  
I Don't Wanna Stop  
When the waves crash beneath us  
Down below this empty feeling  
I Don't Wanna Stop  
I Don't Wanna Stop

I Don't Wanna Stop  
I Don't Wanna Stop

When the wind blows between us  
High above this empty feeling  
I Don't Wanna Stop  
I Don't Wanna Stop  
When the waves crash beneath us  
Down below this empty feeling  
I Don't Wanna Stop  
I Don't Wanna Stop
