

ATB, Let U Go

I've been to all the familiar places
I've been running like a sentence
Never begun
I've been looking for a way to let you know
I got nothing left to fill up spaces
I got nothing but a sentence
Coming undone
I've been doing circles and it shows
Every cloud in the sky
Every place that I hide
Tell me that I
I was wrong to let u go
Every sounds that I hear
Every thoughts that I fear
Tell me that I
I was wrong, I was wrong to let u go
I've been to all the familiar places
I've been running like a sentence
Never begun
I've been looking for a way to let you know
I got nothing left to fill up spaces
I got nothing but a sentence
Coming undone
I've been doing circles and it shows
Every cloud in the sky
Every place that I hide
Tell me that I
I was wrong to let u go
Every sounds that I hear
Every thoughts that I fear
Tell me that I
I was wrong, I was wrong to let u go
Let u go, let u go, let u go
Let u go, let u go, let u go
Let u go, let u go, let u go
...
