

ATB, Let U Go (Wippenberg Remix)

Let U go, let U go, let U go

Let U go, let U go, let U go

Let U go, let U go, let U go

Let U go, let U go, let U go

Let U go, let U go, let U go

Let U go, let U go, let U go

Let U go, let U go, let U go

Let U go, let U go, let U go

I've been to all the familiar places

I've been running like a sentence never begun

I've been looking for a way to let you know

I've got nothing left to fill the spaces

I've got nothing but a sentence coming undone

I've been doing circles and it shows

Every cloud in the sky, every place that I hide

Tell me that I, I was wrong to let you go

Every sounds that I hear, every thoughts that I fear

Tell me that I, I was wrong, I was wrong to let you go

Let U go

Let U go, let U go, let U go

Let U go, let U go, let U go

Let U go, let U go, let U go

Let U go, let U go, let U go
