

# ATB, New Day

Why don't you kidnap me for all time sake?  
And I'll come breaking to your house again.  
I know you love it when I show you that I really care.  
I never felt so safe when I'm lying up your favourite chair  
Of a new day

A new day

A new day[x4]

Why don't I break all of the rules we made?  
Why don't you throw me in the pool just like that day?

We used to stay up so very, very late,

We used to play our favourite songs until the first sign
