

ATB with F51, Message Out To You

A place it by the see
For you to find me
I hope that it might turn into
Something better than my reality
Time is standing still
What it keep on hoping
You'll say you will
Al lthis time we can be wasting
Cuz all alone I've been here waiting

I want you to know
I don't want to still be 'on'
I need this for a reason
I've sent my message in a bottle
Send my message out ot you
It could be so beautiful
If I get my message, yes!
My message out to you /5x
