

# Athlete, Rubik's Cube

The world is too heavy, too big for my shoulders  
Come take the weight off me now  
Thousands of answers to one simple question  
Come take the weight off me now  
Oh, I'm like a kid who just won't let it go  
Twisting and turning the colors in rows  
I'm so intent to find out what it is  
This is my Rubik's cube, I know I can figure it out  
Lost in the playground, late night nostalgia  
Open the sky for me now  
Friends round the fire outside in December  
Open the sky for me now  
Oh, I'm like a kid who just won't let it go  
Twisting and turning the colors in rows  
I'm so intent to find out what it is  
This is my Rubik's cube, I know I can figure it out  
Credits roll over the edge of horizons  
That I haven't discovered yet  
Oh, I'm like a kid who just won't let it go  
Twisting and turning the colors in rows  
I'm so intent to find out what it is  
This is my Rubik's cube, I know I can figure it out  
Oh, I'm like a kid who just won't let it go  
Twisting and turning the colors in rows  
I'm so intent to find out what it is  
This is my Rubik's cube, I know I can figure it out
