

Atmosphere, Alive

I'm moving in this place, I struggle everyday
Sometimes easy, sometimes hard
Now I know what it's all about, I have no where to hide
Living with strangers, back to bases, learning how to survive

Now I maybe know how to
Stand by me

Chorus:

Cause I feel alive, knowing what I feel inside
I just speak my mind, tell me 'bout the human inside
If you know what I mean, then you know what I'm up to
I say what I feel, then I'm in control this time

The fellowship that we have, will last for a long, long time
Together we have so much fun
It's a party everyday, the happiness will stay
So turn on you TV, I know you can see me, I'm giving you my life

Now I maybe know how to
Stand by me

Chorus:

Cause I feel alive, knowing what I feel inside
I just speak my mind, tell me 'bout the human inside
If you know what I mean, then you know what I'm up to
I say what I feel, then I'm in control this time

Chorus:

Cause I feel alive, knowing what I feel inside
I just speak my mind, tell me 'bout the human inside
If you know what I mean, then you know what I'm up to
I say what I feel, then I'm in control this time
