

# Atrocity, Deliverance

Frozen minded out from the ashes see my face in the dust  
Magic structures, human madness apocalyptic trance  
The battle rages from day to day endless night begins  
Darkened landscape, left behind saturated with blood  
All life is lost - in misery upon the earth - storm rages on  
Into nothingness - crimson rain covers the earth  
Impure mankind - perished in pain but still raising the dead  
Wasted genius and wasted land how great was your gain?  
The answer is: self-impotence never ask for forgiveness  
All life is lost - in misery no one cares - when the reaper laughs:  
"Into my world - I guide your life to eternity  
sorrow and sadness - pain is the law and love is the crime"  
Deliverance  
Depth of terror, depth of horror lost eden pays its price  
perveyor of distress, from the abyss thy will be done!  
Impure mankind - the lost chapter is over now!  
Into nothingness - nothing is gained, nothing is came!  
Deliverance! "Come to my world!" Deliverance!..From mankind!
