

# Atrocity, Moonstrucker

I dance the moonlight-dance

Dark clouds are passing by  
Clearing up the darkened sky  
Face in the teeth of the wind  
To watch the rising light

With my lonely beating heart  
Step by step, so close to you  
Pounding, pounding amid the glade  
I raise my arms up to the sky

Moonstrucker

Nightly scene  
Nocturnal game  
Moon obsessed  
Moonstrucker

Changing garment night by night  
Appaering in habitual grace  
Ocean dressed in silver clothes  
The crescent keeps my thoughts

With my lonley beating heart  
Step by step, so close to you  
Pounding, pounding amid the glade  
I raise my arms up to the sky

Nightly scene  
Nocturnal game  
Moon obsessed  
Moonstrucker

The old calaboose memories  
Flashing through my mind  
From time immemorial  
You guide my blood-damned life

With my lonely beating heart  
Step by step, so close to you  
Pounding, pounding amid the glade  
I raise my arms up to the sky

Moonstrucker
