Au Revoir Simone, Shadows

You tell me That it's getting better But every time that we say goodnight [goodnight goodnight] I'm haunted by your eyes And how long they've been crying Don't tell me About a bad reaction Don't tell me that you plan to hide [to hide to hide] Reasoning aside I'm moving on I hope your coming with me I hope your coming with me

Anyone can answer their own questions All you have to do is look inside [inside inside] You know it inside You know it will be alright [alright alright] You know its alright I'm moving on I hope your coming with me Cause I'm not strong without you Don't blame it on Your shadows Cause I know all about you
