

Audio Adrenaline, Speak To Me

I'm in a fix
Need something quick
My mind is numb
My stomach sick
Broken hearts
Hopeless things
I've seen what defiance brings

Cause the light of day
I've always known
Is in my heart
I'm not alone

Speak to me
And tell me all the things I need to know
I want to hear You now
Can you speak to me
I've opened up Your Word to free me
I want to hear You now

It's amazing
How I forget
Can't live my life
For lack of it

But the light of day
I've always known
It's in my heart
I'm not alone

Speak to me
And tell me all the things I need to know
I want to hear You now
Can You speak to me
I've opened up Your Word to free me
I want to hear You now

Make Your wisdom clear
The words I hold so dear
Bring light into my dark
I hide them inside my heart
