

# Audio Adrenaline, Speak To Me

I'm in a fix  
Need something quick  
My mind is numb  
My stomach sick  
Broken hearts  
Hopeless things  
I've seen what defiance brings

Cause the light of day  
I've always known  
Is in my heart  
I'm not alone

Speak to me  
And tell me all the things I need to know  
I want to hear You now  
Can you speak to me  
I've opened up Your Word to free me  
I want to hear You now

It's amazing  
How I forget  
Can't live my life  
For lack of it

But the light of day  
I've always known  
It's in my heart  
I'm not alone

Speak to me  
And tell me all the things I need to know  
I want to hear You now  
Can You speak to me  
I've opened up Your Word to free me  
I want to hear You now

Make Your wisdom clear  
The words I hold so dear  
Bring light into my dark  
I hide them inside my heart
