

Audiovent, One Small Choice

Sometimes
I wonder how it all would be
If only one thing happened differently
And time will tell
What will become of us
One small choice
Just one small choice

And what if I had never decided this?
Would I be here?
Or be gone?
And all I've ever wanted
Was just to see how it would be
One small choice

Sometimes
I wonder what it's like to fly
So easy
One small choice could end my life
I'd take the second chance
To make things right
Just one small choice

And what if I had never decided this?
Would I be here?
Or be gone?
And all I've ever wanted
Was just to see how it would be
One small choice

Need it
Feed it
Can't re-seed it
Why?

What if I had never decided this?
Would I be here?
Or be gone?
And all I've ever wanted
Was just to see how it would be
One small choice
And all I've ever wanted
Was just to see how it would be
One small choice
