

# Aurea, Why?

I remember a long time ago  
A little child I used to know  
But somehow it all just fades away

A precious young and warm pure heart  
Round green eyes, small painted mouth  
A tiny nose pointing to the stars

She used to play with barbie dolls  
Played some football with the boys  
She didn't care about the time

She used to smile to everybody  
And read those fairytales  
She was afraid of sleeping in the dark

Wish I could turn back time  
I feel like I'm losing my essence  
Although I try to hide  
It's slipping through my fingers

Why  
Why  
Why  
Can you take me back to the start

Time went by so fast  
I cry and scream more than I laugh  
Those fairytales don't feel right anymore

Loneliness turned my best friend  
I kinda meet her everywhere  
The darkness became my lullaby

Why  
Why  
Why  
Can you take me back to the start

Why  
Why  
Why  
Can you take me back to the start

Why  
Why  
Why  
Can you take me back to the start

Why
