Aurora, Dreaming

(Verse 1)

So you see right through me Am I really here If I told you something Would you even care Would you even dare

So unexpected, this circumstance I'm unconected Could we take a chance

(Chorus)

On another day Would it be this way I just ask myself

If I was dreaming, you'd see me I'd be understood But I'm just drowning, going under Wishing you'd say we could

But if you just walk on by I'm only dreaming I'm only dreaming

(Verse 2)

And I just don't wanna
Lose the moment
Leave the conversation
Hanging in the air
Oh, tell me do you care
I can walk on water
I just don't look down
I've got no intention of turning around

(Repeat Chorus)

(Verse 3)

And it keeps on pulling me Something I did not say I'm falling so suddenly and I ask myself and I ask myself

(Repeat Chorus)
