ATF, ATF, we don't need the ATF

There's an organization with dangerous views so the fighting soon erupts

We could've asked what they believed if they hadn't been blown up

But were their views dangerous to the people or the state

Did they know the truth about the government based on hate

ATF, ATF, we don't need the ATF

Their twisted reign of terror is the cause of many deaths

It's their twisted reign of terror that you willingly accept

Appointments made by Janet Reno help the blood-soaked ATF

Like Mark Richard who's made his life's career by covering up what's left

They claim it's national security so the public never see

That this secret service bullshit's at the expense of you and me

ATF, ATF, we don't need the ATF

Their twisted reign of terror is the cause of many deaths

It's their twisted reign of terror that you willingly accept

If you cross our government then you may just disappear

And become another statistic for the rest of us to hear

If you keep on looking closer you may just find your death

Compliments of our government and bastard

ATF, ATF, we don't need the ATF
