

# Autumn Leaves, The Discovery

I was created  
To walk the soil of the earth  
And i will wander  
Until the night has swallowed the sun  
Then I will enter  
A dimension beyond humanity

I am the thunder  
The roaring beast of nature  
I am the lightning  
The one that ignites your every soul  
I am all of everything  
And everything is to discover...
