

# Avatar, Valley of Disease

I am projectile vomit  
You're the recipient  
Would you like, would you like,  
Tell me, would you like a second  
Everybody knows - You're out of time

I am the problem  
I warned you, didn't I?  
You are in danger  
Run away from me

I am teeth dissipating  
I am your cause of death  
Spit me out, spit me out  
I'm your dirty little secret  
Everybody knows your history

I am the problem  
I warned you, didn't I?  
You are in danger  
Run away from me

It's true, you saw with your own two eyes  
A shadowed land beneath the streets  
Upon a viper's back a stranger rides  
Down in the valley of disease

I am the burning temple  
A throne of tooth and nail  
Come and taste, come and taste  
I am waiting in the alley  
I will grant you every wish you fear

I am the problem  
I warned you, didn't I?  
You are in danger  
Run away from me

It's true, you saw with your own two eyes  
A shadowed land beneath the streets  
Upon a viper's back a stranger rides  
Down in the valley of disease

It's true, you saw with your own two eyes  
A shadowed land beneath the streets  
Upon a viper's back a stranger rides  
Down in the valley of disease
