

# Avi Kaplan, All Is Well (Feat. Joy Williams)

I dove into the dark  
And I swear I almost drowned  
But I could see the stars looking up as I was sinking down

All is well  
All is well  
Heaven hell wherever I go  
All is well in my soul  
All is well

Now I've landed in the light  
And my eyes can finally see  
The darkness in my mind  
Was the path to set my spirit free

All is well  
All is well  
Heaven hell wherever I go  
All is well in my soul  
All is well

It's the smoke it's the flame  
It's the ash and it's the rain  
It's the burn and wash away  
It's the change and it's the same

All is well  
All is well  
Heaven hell wherever I go all is well  
Time will tell and I will know  
All is well in my soul  
All is well

Heaven hell wherever I go  
All is well in my soul  
All is well
