

# Avian X, My Life

I've changed my destiny  
I found out who I am  
I learned to pull the strings  
I thought I never had  
I stepped out into the unknown  
And discovered so many things  
Couldn't live the life I was shown  
It had no passion only fears

I wanna live my life, just wanna live my life  
I wanna scream out loud  
that's how I want to live my life

I'll go all by myself  
If there is no one to join  
I pray for power and strength  
To overcome what I can't avoid  
And all unanswered questions  
Are being answered on my way  
When I fall I get up fast and  
I take a break look up and pray

Every day is another chance  
To take a deep breath and to make sense  
Of things that are out there, out there  
Of things that are out there, out there
