

Avicii, Hold On Never Leave (Ft. Martin Garrix)

I thought my heart was gone
After I lost it all
Felt I was falling down
Still I chose to be proud
Until I hit the ground

You got me back on my feet again
You said that lovers come and may go
You said that time will pass
But I'll stay your friend
I'll help you up when you feel alone

I was lonely
But after all you told me I'd be okay
Cause Friends are worth a hole lot more then money
Hope that everyone has felt like me
Hold on never leave

I started looking back
At all I used to have
I never felt so low
Where did everyone go
When I need them most
