## Awolnation, People

Thank you
For listening again
Or for the first time
Or for the last time
We share this moment
And i am greatful for this

I was born to rage
For my fathers pain
With my brothers style
For my mothers rain
We could use some hope
We must learn to cope
So be good with goodbyes
So be good with goodbyes

## Alright now

People
People
Have you heard the good news
There's peiple
People
They're running just like you
Today
I say
It's all that matters for now
For you
And I
Wooo
So people
People
Make some good ol' love

Well I lost my pride
With this body of mine
In another land
I began to understand
I got love for all your hate
I got lost to find my way
So be good with goodbye
So be good with good byes

Yeah Alright now

People
People
Have you heard the good news
There's peiple
People
They're running just like you
Today
I say
It's all that matters for now
For you
And I
Wooo

Make some good ol' love

My knife is a dream It's a beautiful world She'll never leave It's a beautiful world Her body sits tight When she's hitchin' a ride Hey man im sorry I'm not lookin' to fight

We were born to rage We're the price of pain We're a single voice We're the second choice We were born to rage
