

Awolnation, Woman Woman

Last night I fell apart, broke from my swollen heart
Born in a simple time, raised with a simple mind

You may be a natural, woman
You may be a natural, woman
You may be a natural, woman
You may be a natural, woman

I may be worthless without you
I'll never decide to replace you
Amen, the worst is behind us now
Woman woman

I may be worthless without you
I'll never decide to replace you
Amen the worst is behind us now
Woman woman

You may be a natural woman
You may be a natural woman
You may be a natural woman
You may be a natural woman

Last night I fell apart, choked on my drunken heart
I may be worthless without you
I'll never decide to replace you
Amen, the worst is behind us now
Woman woman

I may be worthless without you
I'll never decide to replace you
Amen, the worst is behind us now
Woman woman

You may be a natural, woman
You may be a natural, woman
You ah ah ah ah

Who's that woman woman
There's that woman woman
Be my woman woman
Won't you see me in the dark

Who's that woman woman
There's that woman woman
Be my woman woman
Won't you see me in the dark

I may be worthless without
I'll never decide to replace you
Amen, the worst is behind us now
Woman woman

I may be worthless without
I'll never decide to replace you
Amen, the worst is behind us now
Woman woman

You may be a natural, woman
You may be a natural, woman
You may be a natural, woman
You may be a natural, woman
