

# Awolnation, Woman Woman

Last night I fell apart, broke from my swollen heart  
Born in a simple time, raised with a simple mind

You may be a natural, woman  
You may be a natural, woman  
You may be a natural, woman  
You may be a natural, woman

I may be worthless without you  
I'll never decide to replace you  
Amen, the worst is behind us now  
Woman woman

I may be worthless without you  
I'll never decide to replace you  
Amen the worst is behind us now  
Woman woman

You may be a natural woman  
You may be a natural woman  
You may be a natural woman  
You may be a natural woman

Last night I fell apart, choked on my drunken heart  
I may be worthless without you  
I'll never decide to replace you  
Amen, the worst is behind us now  
Woman woman

I may be worthless without you  
I'll never decide to replace you  
Amen, the worst is behind us now  
Woman woman

You may be a natural, woman  
You may be a natural, woman  
You ah ah ah ah

Who's that woman woman  
There's that woman woman  
Be my woman woman  
Won't you see me in the dark

Who's that woman woman  
There's that woman woman  
Be my woman woman  
Won't you see me in the dark

I may be worthless without  
I'll never decide to replace you  
Amen, the worst is behind us now  
Woman woman

I may be worthless without  
I'll never decide to replace you  
Amen, the worst is behind us now  
Woman woman

You may be a natural, woman  
You may be a natural, woman  
You may be a natural, woman  
You may be a natural, woman
