

# Axel Rudi Pell, Higher

When the earth kept on turning  
and the smoke faded away  
we climbed the walls at the end of our time  
sending shivers down the spine

They're feeling like lost fools in the night  
wherever they are  
leaving ruins and the moon's shining bright  
lighter than a star

Higher  
than a mountain  
reaching the stars  
Higher  
the their shadows  
coming out of the dark

Silent screams out in the black rain  
are gone forever with the wind  
oh no, they can feel the heat coming  
rising with the sun

They're feeling like lost fools in the night  
wherever they are  
leaving ruins and the moon's shining bright  
lighter than a star

Higher  
than a mountain  
reaching the stars  
Higher  
the their shadows  
coming out of the dark

Higher  
than a mountain  
reaching the stars  
Higher  
the their shadows  
coming out of the dark
