

Axxis, Beyond the Sky

Blood sacrifice
A candle light
A virgin tear
Is lost in fear

The darkness grows
A silver glow
Mankind is pained
They were unchained

Calling up the demons
With a magic spell
The masters of all evil
Screaming out their devilish yell

Purple dust of twilight
Confuses our minds
Shadows fighting outright
And everybody will be blind

Bridge:
I don't know how to survive
But I know

Chorus:
Beyond the sky
A million miles
Out of the light
The shadows die
Beyond the sky
A million miles
Out of the light
The shadows die

Nightingales are singing
Final melodies
The doomsday bell is ringing
For the approaching enemies

I see fires burning
In their frozen eyes
Shadows sent for killing
Without any compromise

Bridge

Chorus

Solo

Ringling - bells are ringing
Singing - hear them singing
Flying - ravens flying
Follow me to die

Chorus:
Beyond the sky
Out of the light
The shadows die
Beyond the sky
A million miles
Out of the light
All shadows die
