Axxis, Gimme Back The Paradise

I feel the hot rhythm I feel the hot beat Of the wild life of rock 'n' roll Travelling on roads I've never seen before And I feel the music in my soul Every day another town Every night another gig And so many people to get to know But you get no time for rest 'Cause you wanna be the best You give everything Tonight in the show This is a rock 'n' roll paradise And I hope it will never end But when we finish our tour And the last day has come I will cry again, again, again and again Gimme back - gimme back the paradise Gimme back - gimme what I want Gimme back - gimme back the paradise Gimme back - gimme what I want So many different places So many different faces Things are strange and new And when I look behind The pictures in my mind Makes me feel As if I drank a witches' brew Gimme more from this drink It's a help for me to think About all that I've seen And I've learnt this time Music changes every mind Everywhere I've ever been This is a rock 'n' roll paradise And I hope it will never end But when we finish our tour And the last day has come I will cry again, again, again and again Gimme back - gimme back the paradise Gimme back - gimme what I want

Gimme back - gimme back the paradise Gimme back - gimme what I want
