

# Axxis, Living in a Dream

I've got a job - but I don't care  
I've got a dream - I've walked on air  
Was so impressed - by Kiss and Queen  
And here I stand - still in the scene

Bridge:

I'm still alive - survived - as for my life  
I truly can say I'm alive

Chorus:

Like living in a dream - we rock the world  
Living in a dream of fame and glory  
Living in a dream - we rock the world  
Close your eyes and believe in your dreams  
Like I did before

Oh, rock - against all odds, we live our dream  
Let's polarize - go to extremes  
I just go ahead - there's nothing to regret

Bridge:

I'm still alive - survived - as for my life  
I truly can say I'm alive

Chorus:

Living in a dream - we rock the world  
Living in a dream of fame and glory  
Living in a dream - we rock the world  
And believe in your dreams - close your eyes

Living in a dream - we rock the world  
Living in a dream of fame and glory  
Living in a dream - we rock the world  
Feel the Yin and the Yang  
Together we're feeling like one

Solo

Chorus:

We rock the world  
Living in a dream - we rock the world  
Living in a dream - we rock the world  
Living in a dream - we rock the world

Like living in a dream - we rock the world  
Living in a dream of fame and glory  
Living in a dream - we rock the world  
Living in a dream of fame and glory  
Living in a dream - we rock the world  
Oh, believe in yourself - free your mind  
Like I did before
