

# Axxis, My Little Princess

Light up my life - more than the sun  
my little princess - you are my only one  
so pure, so lovely - your deep blue eyes  
so innocent - your children's paradise  
Hold you - touch you  
I wanna live for you  
My little princess - you're the one and only girl  
I would give I would do everything for you  
my little princess - I would build a world for you  
oh its so nice - a children's paradise  
Can find no words for what I feel  
this must be true love, this love must be real  
when I embrace you I touch the sky  
in our fairy tales you let me think that I can fly  
I wanna live for you  
Hold you ...  
My little princess ...
