

# Axxis, Venom

Shades of blackness - deep inside  
You've brought the chaos in my mind  
All my senses - fall asleep  
I'm falling deeper than deep  
Eyes open wide - but I can't see

Chorus:

I feel your venom  
Running through my veins  
My blood will burn like fire  
When I'm in your chains  
I feel your venom  
Your poison in my blood  
Got me addicted to your love  
Your love will be my drug

So much weakness - paralyzed  
I feel my body - cold as ice  
It's hot inside - million degrees  
My blood is burning - but I'm freeze  
Oh, don't stop loving - oh, please go ahead

Chorus

Solo

I feel your venom  
Running through my veins  
My blood will burn like fire  
When I'm in your chains  
I feel your venom  
Your poison in my blood  
Got me addicted to your love  
You are my drug  
You are my drug  
You are my drug  
My drug
