

# Ayreon, Newborn Race

""(Part I - The Incentive)""

"(Daniel Gildenlw:)"

There must be a way to enrich our lives  
A way to awaken a nation that dies  
There must be a way to revive our past  
A way to break free from a world that won't last

"(Floor Jansen:)"

Take me back to when we lived another life  
Back to when we had no plan  
Take me back to when we struggled to survive  
Back to when it all began

"(Daniel Gildenlw:)"

There must be a way to reverse history  
A way to resume life, return to the sea  
There must be a way to win back what we lost  
A way to escape this, whatever the cost

"(Floor Jansen:)"

Take me back to when we lived another life  
Back to when we had no plan  
Take me back to when we struggled to survive  
Back to when it all began

""(Part II - The Vision)""

"(Tom Englund:)"

Explore the vastness of space  
Discover a wonderful place  
Enter a brand new phase  
Seed the world with a newborn race

""(Part III - The Procedure)""

"(Jonas Renkse:)"

We have no choice  
Life is passing us by  
We should rejoice  
I say we should try

"(Bob Catley:)"

Every million cycles  
Shooting stars rip our sky  
We could divert them  
On the day they pass us by

"(Hansi Krsch:)"

And on that shining day there is a way  
For our DNA to reach a world to stay

"(Jrn Lande:)"

Hmmm  
Do we have the right to create life?  
And do we have the right to take it?  
Can we decide who lives and dies?  
Do you think they would even make it?

"(Jonas Renkse:)"

We have no choice, life is passing us by

"(Bob Catley:)"

We'll plant our seeds

And guide them to their goal  
We cannot fail, we have absolute control

"(Hansi Krsch:)"  
And on that shining day there is a way  
For our DNA to reach a world to stay

"(Jrn Lande:)"  
Hmmm  
Do we have the right to play gods?  
I strongly feel I have to make a stance  
Do you think we should take the odds?  
Would they even stand a chance?  
I don't think they ever will  
Ever will No

Take us back to when we lived another life  
Back to when we had no plan  
Take us back to when we struggled to survive  
Back to when it all began
