

# Baby Animals, Life From A Distance

Life lives alone on top of a hill  
Tonight the moon is closer than it's been  
In three hundred years  
And if you feel like the weakest link  
Well you just let your body sink  
To the peace underneath  
Sometimes I see life from a distance  
Sometimes I see life from a distance  
Your good intent is just as it should be  
Never a lie has been so well hidden  
In so many years  
Don't blame the mess on who brought the message  
You don't want to hear just what the truth brings to so many ears.  
Sometimes I see life from a distance  
Sometimes I see life from a distance  
Like my pale insignificance  
Tonight the moon is closer than it's been  
In three hundred years  
Sometimes I see life from a distance  
Sometimes I see life from a distance  
Sometimes I see life from a distance  
Like my pale insignificance
