

# Baby Boy, Baby Boy

From the day that I saw you  
I knew that we would pursue  
Cause the chemistry  
we felt that day  
Felt so real, and so true  
Looking back on a year  
we spent together  
How it's been, what  
we went through  
Although we've had our  
little ups and downs  
We've still pulled through

Baby girl you're my  
world my everything  
I wanna lace you with  
diamonds and every ring  
Give you everything you  
dream and fantasize  
Cause you can tell me  
that you love me  
Looking in my eyes  
You keep it real with me,  
I keep it real with you  
You keep on loving me,  
I'll keep on loving you  
Keep doing what you do,  
I feel your whole aura  
And I can't wait to hook up  
again tomorrow baby - what

[Chorus:]  
My love for you will never end  
You'll always be a part of me  
As long as time keeps  
on passing by  
You'll always be my baby boy.

Everytime I look at you,  
I can't believe  
I've found a love so true (and)  
I took my time to put  
my trust in you  
I must admit it was so hard to do  
And every minute that I  
spend with you  
You make me believe I  
have nothing to loose and  
Deep down I always knew  
that you would be mine

Do you believe in destiny  
Because I got a funny feeling  
this was meant to be  
Without you I'd be lost,  
I need you next to me  
Preferably in the house full  
of luxuries and little kids  
From day one I was sprung,  
knew you was gonna be one  
Cause my heart spoke for the  
very first time in a long while  
And every time you smile, I can see us walking up the aisle with you  
carrying my child C'mon

[Chorus]

If you were to go, I don't know  
You're the only one who  
sweeps me off my feet  
Makes my soul go weak  
The only one who makes  
my heart wanna beat and I,  
I could never live without you  
You know that what I feel  
has to be true  
Cause you're my, my sweet love

Ever since the first time,  
that I looked into your eyes  
I knew that you were  
gonna be mine  
Feeling you from the inside,  
when you're not by my side  
You're the only girl  
that's on my mind  
I never knew a love like  
this, a love so strong  
A vision so picture perfect  
it could never be wrong  
Along the way, you're gonna  
see you belong with Jay  
I might have to marry you  
one day baby eh..

[Chorus / Outro]
