Babyface, Loves Been So Nice

Written by babyface, don parks (1989) Performed by after 7

Loves been so nice Loves been so right Loves been so right Loves been so right

I've been in love, many times before But never has my love, ever been so sure Girl I'm so glad, that you could care So much for me The girl is so bad, I can't believe She belongs to me

Loves been so nice Since you've been around Loves been so right

I've been waiting for your love But love has been over due Well never did I dream girl I'd find love so true Girl I'm so glad, that I found you You are my dream come true Girl I'm so glad, I can be with you You are my dream come true
