Babys, The, California

Babys, The Head First California

When i came back home from the usa

I had nothin' in my pockets and not a lot to say

Though i knew somehow we would meet real soon

But the way you've been avoidin' me

It's like i'm livin' on the moon

Here i am on this side of the stars

Livin' in california

And sometimes i get out of reach in the bars

Dreamin' about my life

And maybe one day i'll take a wife

Though i spent some time on the evil road

I've done things that i'm ashamed of

Oh man it's such a heavy load

Though i knew somehow we would meet real soon

But the way you've been avoidin' me

It's like i'm livin' on the moon

Here i am on this side of the stars

Livin' in california

And sometimes i get out of reach in the bars

Dreamin' about my life

And maybe one day i'll take a wife

Oh

I miss you girl

Your dreams are more than i can take

You are the love of my life

But i could be my biggest mistake

Ah babe my heart's turnin' like a wheel

I feel emotion for you but i just can't tell if it's real

When i came back home from the usa

I had nothin' in my pockets and not a lot to say

Though i knew somehow we would meet real soon

But the way you've been avoidin' me

It's like i'm livin' on the moon

Here i am on this side of the stars

Livin' in california

And sometimes i get out of reach in the bars

Dreamin' about my life

And maybe one day i'll take a wife

Oh ooooh baby oh i miss you girl
