Babyshambles, Side Of The Road/Buttercup Sing

I'm half dead, I'm the third alive A quarter ticking over on the middle by the side of the road Don't get surrounded by people you hate They'll choke you out the house Down the path and out the garden gate Ooh, I'll ever, never, not once when we're together One gun punks on vogue at the side with the bands And the vans and the gangs and the clan With the monkey man high with a little girl at his side What is it that you're doing to me? Oh, I don't know, I know, I know I know, there came a truce and tea

Ooh, I will never, never, not chop those two together With wheeling dope just do it on the side With the bands and the fans and gangs and the clan With the monkey man high with a little girl at his side Well, I'll never, ever, now that we're together Waiting on the dope As he's queuing up inside, inside graveyard I'm half dead, I'm the third alive A quarter ticking over on the middle by the side of the road
