## Babyshambles, The Blinding [Clean]

Come and see the blinding, it's so blinding It's the last thing that you'll ever see But you might be happy, oh, happier Than you've ever been So let me show the blinding Last thing you'll ever see But you might be free, oh, freer Freer than you've ever been What will you do If she runs out of time for you? Where will you go? Well, things to be getting on with On with, on with the show Come and see the blinding, it's so blinding, it's so blinding It's the last thing that you'll ever see Let me show the blinding, it's so blinding, it's so blinding It's the last thing that you'll ever see Oh, what will you do If they run out of time for you? And crossing the roads without you Out you, out you go Out you go, out you go It's so blinding, it's so blinding It's so blinding, it's so blinding It's so blinding, means so blinding It's the last thing you'll ever see Last thing you'll ever see
