

Bachelor Girl, This Must Be Love

What does it mean, what does it mean
When you use my toothbrush
What does it mean, what does it mean
When I pay for lunch with you
All day all night all week and still it dont seem like too much
I wear your sweaters and you wear my shoes
What does it mean, what does it mean
When you do my laundry
How come it's OK that you use your key to my front door
You steal the blankets while we sleep
I steal your last beer
But I guess that we ain't keeping score
This must be love
Coz what else could make us act the way we do
Just think it through
This must be love
And I don't think anything else could be to blame
This must be love
Like it or not
Coz what does it mean, what does it mean
You drink my dregs of coffee
How come its Ok when I buy you stuff with your credit card
All day all week all month and still it don't seem like too much
To spend a year with you wont be too hard
This must be love
Coz what else could make us act the way we do
Just think it through
This must be love
Coz I don't think anything else could be to blame
This must be love
Like it or not
What does it mean what does it mean
Your wallet holds my photo
How come each place I go seems so much better if your there
We light candles stay up late
Always hate to go
I guess there's no chance we don't really care
This must be love
Coz what else could make us act the way we do
Just think it through
This must be love
Coz I don't think anything else could be to blame
This must be love
Coz what else could make us act the way we do
This must be love
Like it or not
