

# Backstreet Boys, Beautiful Woman

How can I begin to  
Tell you what you do to  
Me every time I hear ya  
More willing to wanna see ya

I know that there's no use in  
Tryin' to explain the confusion  
But still I'm not complainin'  
'Bout my situation

Let's not talk about a  
Possible ending

The very first time that I  
Was lookin' to be your fella  
I found my inspiration  
Hidin' in your expression  
So I put myself forward  
For your consideration

[Chorus:]  
Let's not talk about a  
Possible ending  
Let's not think about it  
Every day  
And I know  
I'm so  
In love  
With you  
I'm finding it harder and harder to breath  
Every time I near  
My beautiful woman

And so we put the top down  
To take you drivin' downtown  
I guess we'll know just what to do  
When you're lookin' to fool around

It's too late to stop me  
I know we're gonna get down

[Chorus]

My beautiful woman  
My beautiful woman  
My beautiful woman

B is for beautiful  
As the sunshine  
E tells me everything is feelin' alright  
A goes to you and me swingin' it down  
T is two  
I want you, You've got me actin' like a  
Fool

[Chorus]
