My Heart Stays With You

Howie: You know, sometimes being on the road is rough. Specially loneliness.

Girl I miss you

And it's only been one day

Since I've been away

And already I say I long to kiss you

And hold you in my arms

The night's are much too long when you're gone

Baby that's why

All (Chorus): Where ever I go

Girl, my heart stays with

My heart stays with you (Howie: After every show)

After every show (Howie: Oh yeah)

I wanna rush over to you

My heart stays with you

Howie: Trust me

When we are apart

I won't break your heart

Where ever you are

I know you feel me

Baby, cause I can feel you too

No matter what you do

I think of you

All (Chorus): Where ever I go

Girl, my heart stays with you (Howie: My heart baby. And when ever I go, my heart stays with you)

My heart stays with you

After every show (Howie: After every show)

I wanna rush over to you

Howie: Baby, yeah

All: When I'm leaving town

When I'm leavin town

Howie: Girl it hurts me too

But I've got a job to do (AJ: Baby, yeah, yeah)

I'll be back around (All: I'll be back around)

To see your sweet face

Your embrace

No one can take your place

But did you know

Where ever I go (AJ: Where ever I go)

Oh baby

I'll be rushin over to you

Where ever I go

All (Chorus): Where ever I go (Howie: When ever I go)
