

# Backstreet Boys, No Place

i've been to Paris  
made my way down to Rome  
seen the sun setting on the beach  
in Mexico

but I could care less  
cause I was all alone  
and here ain't no way to touch your body  
over the phone

I've been all around the world  
donr all there is to do  
but you'll always be the home  
I want to come home to  
you're a wild night  
with a hell of a view  
there ain;t no place  
ain;t no place like you  
there ain;t no place  
ain;t no place like you

you're my daybreak  
you're my California sun  
you're my Memphis  
New York, New Orleans  
All rolled into one

in the city, the country  
The mountains or the sea  
Wherever you are baby  
that's where I want to be

I've been all around the world  
donr all there is to do  
but you'll always be the home  
I want to come home to  
you're a wild night  
with a hell of a view  
there ain;t no place  
ain;t no place like you  
there ain;t no place  
ain;t no place like you

no sight ever left me breathless  
the way you take my breath away  
no scene ever lest me speechless  
but right now I've got no words to say

I've been all around the world  
donr all there is to do  
but you'll always be the home  
I want to come home to  
you're a wild night  
with a hell of a view  
there ain;t no place  
ain;t no place like you  
there ain;t no place  
ain;t no place like you
