

Bad Boys Blue, Kiss

You knock on my door asking for something.
I have never been asked for.
Should I say yes? Or should I say no?
I want you to know.

All the things that you say. They make me wanna stay.
All the things that you do. They make me fall in love with you.

Just one more kiss and I believe that Im in paradise.
Just one more touch. I feel that an angel has passed me tonight.

Water has turned into wine. Come and taste it.
Cause were running out of time.
Im ready to fly all through the night.
Let your love decide.

All the things that you say. They make me wanna stay.
All the things that you do. They make me fall in love with you.

Just one more kiss and I believe that Im in paradise.
Just one more touch. I feel that an angel has passed me tonight.

Just one more.
Just one more kiss from you - its paradise.
Just one more.
Just one more touch and I feel that an angel has passed me tonight.
Time, times not waiting.

All the things that you say. They make me wanna stay.
All the things that you do. They make me fall in love with you.

Just one more kiss and I believe that Im in paradise.
Just one more touch. I feel that an angel has passed me tonight.
