

Bad Company, I Can't Live Without You

The first time you deceived me, it nearly broke my heart
What hurts me most was I'm the last to know
So lately I've been thinking, thinking 'bout you
I know deep in my heart you had to go
Last night when I told you, you looked into my eyes
A wicked smile just spread across your face
You know I can't resist you, no matter what you do
The way you treat me babe, it's a disgrace
I can't live without you, heaven knows I really tried
Girl, there's something wild about you
And it won't let me say goodbye
Girl, you drive me crazy, I don't know what to do
Every night, I keep on losing sleep
'Cause when I make my mind up, you smile that wicked smile
That's when I know I'm in too deep
I can't live without you, heaven knows I really tried
Girl, there's something wild about you
And it won't let me say goodbye
You just laugh everytime that I go crazy
You know too well who's got control
The way you turn me inside out, you just amaze me
You got my heart and soul, girl you've got it all
I can't live without you, heaven knows I really tried
Girl, there's something wild about you
And it won't let me say goodbye
I can't live without you, heaven knows I really tried
Girl, there's something wild about you
And it won't let me say goodbye
I can't live without you, heaven knows I really tried
Girl, there's something wild about you
And it won't let me say goodbye
