

Bad Company, Silver, Blue & Gold

In the beginning, I believed every word that you said
Now that you're gone my world's in shreds
Oh you loved me and left me
You took all the things that I needed so bad
I'm standing here wondering where is the love that I had oh

CHORUS:

Give me silver, blue and gold
The color of the sky I'm told
My rainbow is overdue
In the beginning, there was something of love that was mine
Now that it's gone, whoa I'm crying
Oh the time that it takes for a love to grow cold is a wonder to me
I'm walking around with my head hanging down tell me where is she

CHORUS

Don't forsake me cause I love you
Don't forsake me cause I love you
